### Georgia's Hunt Fig

This is a very tasty small brown fig, similar to Celeste, with a light strawberry-tan interior. Ray Givan, NAFEX fig chairman, reports that it was originally bred by E. W. Hunt of Eatonton, Georgia in the 1920s.

Hunt is a good bearer of continuing crops of very sweet, rich figs that do very well in rainy areas of the southern states where other, larger figs lose their flavor or split before ripening.

**Plants will be on sale at the nursery during our Fall 2006 and Spring 2007 CUSTOMER WEEKENDS and should be available online in March 2007. Remember, this is the last season for Paradise Nursery before we retire, so when these plants are gone, there will be no more!**

**Georgia's Hunt HUNT-01 AVAIL ONLINE MARCH 2007**

*Paradise Nursery - we're working to make the world a more delicious place.....*
